-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claims 7, 9, 10, 18, 19, and 22 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected species, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on October 24, 2005.

The requirement is still deemed proper and is therefore made FINAL.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-6, 14, 15, 17, 18, 20, 21, and 25 are rejected under 35 U.S.C. 102(b) as being anticipated by Johnstone, U. S. Patent 5,272,605. Johnstone teaches a mounting device for an exit sign comprising a canopy element 18 that covers the junction box 36 upon connection of the mounting device to the junction box 36 and a connector 20 that connects to

the electrical fixture/exit sign 10 and is disposed between the canopy element 18 and the junction box 36. Johnstone also teaches a universal mounting plate 20 integrally formed with the connector that connects to the junction box 36.

4. With respect to claim 2, Johnstone teaches the electrical fixture is an exit sign 10.

5. With respect to claim 3, Johnstone teaches the universal mounting plate 20 includes a plurality of apertures (not labeled, see figure 5) patterned to correspond to apertures in the junction box 36.

6. With respect to claims 4-6, Johnstone also teaches a fastener 43 that extends through at least one of the plurality of apertures in the universal mounting plate 20 and a corresponding aperture in the junction box. See figure 6.

7. With respect to claim 14, Johnstone teaches the junction box mounted flush with the wall 38. See figure 2.

8. With respect to claim 15, Johnstone teaches the junction box mounted within the wall 38. See figure 6.

9. With respect to claims 17 and 25, Johnstone teaches the fasteners 43 are received within at least one of a plurality of apertures of the

universal mounting plate 20 and joinable to the junction box such that the fasteners connects the mounting device to the junction box without engaging or passing through the canopy element. See figure 6.

***Allowable Subject Matter***

10. Claims 8, 11-13, 20, 23, and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

11. Claim 18 is allowed.
